

# ELECTRONIC WARFARE

## CADENCE XL

CADENCE XL is a 360-degree RF drone detector that identifies threat direction and drone manufacturer. With its lightweight, plug-and-play design, CADENCE XL can be set up in just minutes for both portable and fixed deployment. It is suited for installations such as perimeter protection at prisons and military camps, sea vessels, or land vehicles. Multiple CADENCE XLs can be used to triangulate drones in larger areas.

**Combine with other IXI EW products for a complete system**

CADENCE XL easily integrates with DRONEKILLER® & DUET

## Technical Specifications

### ▶ CONFIGURATION

Weight	5 kg
Dimensions	H:10.25x D:12.5 inches
Color	Gray

### ▶ ENVIRONMENT & POWER

Operating Temps	-30°C to +60°C
Power Supply	Power 12-15V DC (115/230V AC power supply included)

### ▶ BANDS

Frequencies	433MHz, 868MHz, 915MHz, 1.2GHz, 5.2GHz 5.8GHz
-------------	---

### ▶ DETECTION

Detection Time	5 sec for known targets
Detection Range	4km within line of sight
Coverage Angle	360 degrees

### ▶ OVERVIEW

- SWaP- Small, lightweight and power efficient
- Easily integrates with other systems
- Easy installation on vehicles, buildings or tripods
- Plug and play-operational in minutes
- Requires only 2 cables
