

ELECTRONIC WARFARE

DRONEKILLER®

The IXI DRONEKILLER® can disable drones operating on 7 frequency bands and is lethal up TO 1000 meters. The IXI DRONEKILLER® enables military and security forces to thwart the use of all consumer drones by enemy combatants. Compact and light weight, able to be deployed by ground forces personnel in mobile units, strike teams, at checkpoints, forward outposts, and security response teams. The IXI DRONEKILLER® is the perfect gap filler and can be used in multiple links of the kill chain.

***Combine with other
IXI EW products for
a complete system***

DRONEKILLER® easily integrates with
CADENCE LITE

Technical Specifications

▶ CONFIGURATION

Weight	8.8 lbs.
Dimensions	H:9.5 x L:24 x D:4 inches
Color	Black/Green

▶ ENVIRONMENT & POWER

Operating Temps	-10°C to +50°C
Battery Capacity	1.5 hours
Power	Rechargeable Li-Ion battery
Charger Adapter	115/230VAC to 12VDC

▶ BANDS

Frequencies	433MHz, 915MHz, 2.4GHz, 5.2GHz, 5.8GHz
-------------	---

▶ INTERDICTION

Distance	1 km line of sight
----------	--------------------

▶ OVERVIEW

- Field programmable with integrated port for software updates
- Disrupts C2 and GPS link controlling drones to descend or return to origin
- User training is less than 1 minute
- Compact, and Lightweight; compatible with military personnel load out
- Cost effective man portable system
